PAKO 2 is crazy taxi criminal edition, and that is a very good thing! (Video Version of Review) <https://youtu.be/PMddawSe0f4>  
The core gameplay revolves around picking up crews from jobs they just pulled, and getting them to their drop-off location, all while avoiding the ever growing police threat that manifests itself in increasingly more dangerous ways. The game may sound simple, but it's all the extra trappings that push this one well ahead of it's competition. An entire lot of cars to buy with in game cash, tons of weapons to purchase that give this title it's twin stick elements, mods that can be installed, a perk system that can be customized and earned through each successful drop-off, stat boosting for each vehicle, multiple levels! The list goes on and on for ways that you can customize your own experience and style in this game. Even the graphic options shine here, with the ability to make the game look like a 70's VHS cop show, or if you prefer, clean up the visuals with a more "modern" look. Tree Men Games have written a love letters to the fans with this title, and I would be more than happy to stand up and start the slow clap that this game deserves.. This game is surprisingly, extremely accurate to the actual Pickers show, just without the likable hosts "Tall Guy who likes Motorbikes" and "Fat Dude who likes Oil Cans and Bundles Stuff".

Appease idiotic country bumpkins with 'Ice Breakers' by buying some cheap piece of junk for \$5 more than its worth, so they'll come to like you. Then have them return the favour by selling you a \$2000 motorcycle sidecar for \$500.

10/10 would scam again

. I don't know why, but I really do enjoy this game. Im one of those guys who likes sim games, I hace ETS 2 as well as ATS. Some thing about making money,working hard to purchase new equipment, planting sweet crops and eventually just becoming a millionaire. Theres so much in this game to do. Ive stuck to crops mainly, havent got to forestry and livestock or anything yet. Only thing I don't really like is hired help, how they can miss portions of your fields if your field isnt exactly square ill say. So im kinda in the process of figuring out where to start on each field so I dont have to keep an eye on them and just do my own thing. I can't believe ive spent 50hours on this game already. I played about 40 hours of it and figured out I dont like the way I pursued certain equipment without really looking over the details of the equipment and what kind of power you need to run things. So im like, forget it, now I know more about the game.....after 40 hours of playing it. So I completely started my game over and its still been very enjoyable redoing a lot of what I already did. I really like this game and highly recommend this game to people who like sim games, like relaxing/kicking back and are willing to basically put a LOT of time into this game. Overall, great purchase, im sure FS 17 will be more awesome.

. I'm really glad I got this. Whenever i'm waiting and just need to kill 5 or 10 minutes, this is perfect. Not much more than that. Great design and art, the music is really cool, too. It definitely serves its purpose and it accomplishes quite well what it is meant to be. So in other words, if you like retro arcade games this is worth at full price.. Really fun game with amazing story! My only complaint is that it's too short! 9/10 game, buy it whenever!. much game many good. Fun game if you don't have any other games to play xD 7/10. Bought it a few years ago, it's telling me now that it only is a trial version and wants to push me to buy an upgrade. Can use it only for 30 days now. I have stopped using it now because of that.. I like the premise of this game. You are an astronaut marooned on a pitch-black planet. While you are merely trying to escape, the planet's denizens have another idea. You must gather survival supplies and fuel for your ship to take off. The atmosphere and enemies reflect a truly Lovecraftian malevolence, and you are given a sense of urgency and desperation.

However, that's where the game stops being a spooky thriller and starts becoming frustrating. If there were a better save system, more places to re-arm and resupply, and more environments to explore, it would be better. But it feels like you are going in circles and accomplishing nothing.

The only criticism I can lay is that the game crashed and lost all my progress.

Awesome.

Overall it's a well written STORY but it shouldn't have been a choose your own adventure game. I don't really feel like I went on an adventure. Or chose anything.. I normally don't give immediatly bad ratings, bought it for 3.99 and still don't feel it's worth it. Why?

- Steam Workshop (didn't tried that out, but some objects look nice, but a developer shouldn't rest on those)

- easy things are really laborious to do, like mark pixels, mark cells (much easier on paint.net)

Probably the rating would be better, if "Second Story" would be implemented in the GCH and didn't cost another 3.99 normal price or at the moment 2.99. That way, it's a cheap rip off from the Game Creator from VX Ace which is not worth money. **COOL! THIS IS A GAME FOR PEOPLE WHO ACTUALLY KNOW WHAT STRATEGY AND TACTIC IS.** This game is fun to just play about in, but if you are looking for a game worth this is not it.

If they put a bit more work into it I might have given it a pass, but it is pretty obvious that they didn't even try with this game..  
shitey game
